- (a) There is one column by class as picked when you created your account. The quantities asked for by the teachers (French AND Language Section teachers) will be indicated for the class/classes of your child/children next year.
- (b) By default the cart will be filled with the quantities asked for by the teachers (French AND section language) (except those indicated in orange, see “e” below). For all lines (blue or orange boxes), you can change the quantities indicated to create your personalized basket (click on the TAB key on your keyboard to validate the new quantity).
- (c) If you prefer, you can put all the quantities at “zero” by clicking here. Your cart will then be empty and you can choose the quantities you desire.
- (d) You can decide to see only the supplies requested for the class of your child/children (or only those requested by other classes, or both)
- (e) The orange boxes represent items for which you have to make a choice: for a specific material **(f)**, we have proposed a choice of reference **(g)**. Remember to adjust the quantities according to what is requested in the left-hand column (for example, choice between 1 single fountain pen, or 2 frixions).

By clicking on the reference number **(g)**, you can see a picture of the article.

- (h) You can save your order as a “brouillon” (draft) and return to it later, or (i) “validate” it when it is complete. You will receive a confirmation e-mail.
